

# airplant CARE INSTRUCTIONS

**Keep the airplant in a bright, warm spot (in sunlight or under indoor lighting).**

**Water the plant about 2 - 3 times a week, preferably with lukewarm water using a spray bottle.**

**Carefully remove the dry parts of the plants with a scissor. Wrinkled leaves can be a sign of dehydration.**

Printed on grass paper (grass paper is made out of 50% fresh fibers from sun dried grass).

Made in Austria.
