

- Remove the paper sleeve and take out the seed bag. Set up the bag and add about 350 ml of water to the bag with the coconut fiber tab. Use your finger to smooth out the soil.
- Open the seed package, sow the seeds and slightly cover with soil.
- Place the planter set in a bright and warm spot and water regularly (every 3 days with about 30 ml of water).
- The lavender plant will begin to grow after about 12 - 16 days and after another 12 weeks you can harvest the first leaves.
